Veterinary Communities - Collaboration in the One Health Concept

Swine Medicine and Production  Poultry Medicine and Production  Ruminant Medicine and Production  Veterinary Education
Aquaculture & Fish Medicine  Veterinary Public Health  Companion Animal Medicine  Other Veterinary Matters  Nutrition and Animal Health
Dear distinguished guests and colleagues,

On behalf of Vietnam Veterinary Association and Nong Lam University Ho Chi Minh City, it is my pleasure to welcome you to participate the 19th Federation of Asian Veterinary Associations (FAVA) Congress held in Ho Chi Minh City, Vietnam in September 2016.

The 19th FAVA Congress in 2016 aims to strengthen the collaboration of Asian veterinary professions to reach optimal health for people, animals and environment. By joining the congress to discuss issues of mutual concerns and solutions, we can obtain excellent knowledge and updated information from Asia-Pacific region and beyond. The Congress is proposed to welcome about 1500 delegates throughout the world working in livestock production, with companion animals, and related fields (animal care, management, veterinary medicine, nutrition, equipment, veterinary education and so forth). Therefore, the congress will have excellent international and regional speakers in key lectures, plenary sessions and free paper presentations. The planned program will consist of 8 sectors in which manuscripts can be submitted.

Besides attending the congress, our guests could take this opportunity to visit an active city like Ho Chi Minh City as well as natural and peaceful villages in the rural areas, and to meet friendly people. With just one or more extra days spent, you can also have chance to discover charming beaches and famous islands such as Phu Quoc or Con Dao which is only 1 hour flight from Ho Chi Minh City.

By such attractive events, I look forward to welcoming all veterinarians, practitioners, and valuable guests to Ho Chi Minh City, the most dynamic city of Vietnam, to enjoy our warm congress.

Assoc. Prof. Dr. Duong Duy Dong
Vice-rector of Nong Lam University HCMC
Congress chairman
19th FAVA congress
